

3 dBd Omnidirectional lighting protected Base Station Antenna for 150 MHz Band

DESCRIPTION

- > CXL 2-3C-PT is a sturdy, 3 dBd, vertically polarized, omnidirectional base station antenna.
- > The antenna has been approved to withstand lightning (10/350 μ s impulses/150 kA) according to EN 62305-1
- > The antenna is provided with our "C" mast bracket, which is a universal, epoxy-coated mounting bracket made of non-corrosive aluminium. The accompanying U-bolts and fittings are made of stainless steel.
- > The antenna can be mounted on 27 to 65 mm dia. mast tubes and it is possible to lead the cable either along the inside or on the outside of the mast tube.
- > The antenna element is completely enclosed in a glass fibre shroud, ensuring undisturbed performance in all climates.
- > To substantially reduce noise caused by atmospheric discharges, all metal parts in the antenna are DC-grounded. Consequently, the antenna shows a DC-short across the coaxial cable.
- > This antenna is constructed to ensure long dependable service in all climates.
- > Grounding conductors is to be chosen in accordance with IEC 62305-3.
